

Just take a closer look!

Features:

- 8-fold magnification
- Camera directly connected to 24" display
- No PC necessary, simple operation
- Extremely uniform white DOM lighting

Fields of application:

- General visual inspection
- Ergonomic microscope replacement
- PCB inspection
- Semiconductor inspection
- Quality control

Technical data	
General	
Power supply	110V-230V AC
Dimensions (LxWxH)	560mm x 560mm x 850mm
Permissible air humidity in operation	20% - 80%
Permissible ambient temperature in operation	0 - 60°C
Weight	Ca. 12 kg
Display	
Size	24 inch
Format	16:9
Resolution	1920 x 1080
Camera	
Resolution (color depth)	1920 x 1080 (24 bit) – 0,04 mm/pixel
Image detail	80 x 45 mm (adaptable through different optics)
Frame rate	30 fps
Pixel size	3µm x 3µm
Output	Vesa standard 15 pol Dsub
Overlay graphic	Adjustable
Lens mount	C-Mount
