

Protective caps for Cognex In-Sight and DataMan

AIT protective caps reliably shield Cognex In-Sight and DataMan systems from dust and splash water up to protection class IP67, while ensuring optimal conditions through standard filters. Using intermediate adapters, multiple heights can be combined; **available sizes are 35mm, 55mm and 65mm with matching adapters** for In-Sight 2800, In-Sight 3800 und DataMan series.

Benefits:

- Enhanced protection for machine vision cameras in industrial environments
- Protection against dust, oil, water, and mechanical damage (IP 67)
- Enable safe cleaning of workspace
- Significantly extend camera lifespan
- Standard filters protect against external influences and improve image quality

Overview:

Cognex Camera	In-Sight 2800	In-Sight 3800	DataMan Series
Adapter	Yes	Yes	Yes
UV-Haze Filter	35 mm / 55 mm	33 mm / 55 mm / 65 mm	35 mm / 55 mm
IR-Transmission Filter	35 mm / 55 mm	33 mm / 55 mm / 65 mm	35 mm / 55 mm
UV/IR-Cut Filter	35 mm / 55 mm	33 mm / 55 mm / 65 mm	35 mm / 55 mm
Extension possible by	21 mm	21 mm	21 mm
